August 2013

Council Corner

By Councilmember Russ Porter

I can't believe it's August already and the summer is almost over. This time of year means different things to different people. To a school teacher like me, it's back to work at the end of an extended vacation. The only thing that makes me not dread this change is that I get to associate with teenagers more once we're back in school. I honestly mean that! We have so many good, energetic, intelligent and talented youth in our community that their association makes me a better person and hopefully keeps me young...even if my own children point out my aging every chance they get. Judith Martin once said, "The invention of the teenager was a mistake. Once you identify a period of life in which people get to stay out late but don't have to pay taxes - naturally, no one wants to live any other way." We do have incidents of our teens getting into trouble in our city, but the majority really want to be productive and helpful. Our Youth City Council is a great example of this, and there really are countless teens giving service to our community on a consistent basis.

With school fast approaching, let me remind us all to be extra cautious while we travel around the schools and the paths these kids take to get there. And once the school year begins, I encourage us all to take advantage of the activities that our local schools have to offer. There are band and choir concerts, school plays, and athletic competitions that offer an entertaining night out, usually at little or no cost. Not only will you have an enjoyable experience, but your support will encourage our youth to participate in these positive events and use their time to be productive and not destructive.

With everyone working together to help, we can make the 2013-14 school year a safe and successful one for all of our youth and our great city!

Urban Forestry Vacant Seats

The City's Urban Forestry Commission is taking applications for two vacant commission seats. The commission meets on the second Thursday of every month at 6:30 p.m. Applicants must reside within the city. If interested, please submit a letter of interest and resume to Mayor Minster at 3950 Adams Avenue South Ogden City, UT 84403.

Adams Avenue Construction Project

The City of Washington Terrace will soon begin a construction project on Adams Ave. from Washington Blvd. to 5600 South. The project is scheduled to begin sometime early August and will be completed sometime mid October. Washington Terrace will be working with the contractor (Associated Brigham Contractors) to keep traffic, including bus service, open with minimal impacts to businesses and residents. Questions about the project can be directed to Steve Harris, Washington Terrace Public Works Director, at 801.395.8289.

Recreation Flag Football and Girls Volleyball Registration Begins

South Ogden City Youth Co-Ed Flag Football registration is currently available until Saturday, August 17 online at southogdencity.com. Leagues are available for boys and girls grades 1 through 9. The cost is \$40 for South Ogden City residents and \$45 for non-residents.

South Ogden City Girls Volleyball registration is also currently available until Saturday, August 17 online at southogdencity.com. Leagues are available for girls grades 3 through 9. The cost is \$40.00 for South Ogden City residents and \$45 for non-residents.

For more information please call 801-622-8538.

**Respite is a group that comes to the Center and cares for loved ones. Caregivers may drop off loved ones at specified times while running errands or just a simple break. All kinds of activities are planned for loved ones.

The Senior Center is looking for volunteers to help with the front desk and in the kitchen during lunch time. Also, if you are in need of a computer, the center's computers are available when there is not a class scheduled. Please call the center for more information

Public Works Projects

The road project on 5100 South from Harrison to Glasmann Way in underway. This project consists of rebuilding the road and also repairing sidewalks, curb and gutter as needed. The estimated completion date for this project is the first week of September.

A waterline project will begin soon located on Burch Creek, Doren and Sunset Lane. New waterlines will be installed as well as new service lines and fire hydrants.

Upcoming projects that are currently out for bid are two road projects. The first project is located on Glasmann Way between Edgewood and 5100 South. The second project is located on 1550 East between Highway 89 and 6150 South. Both project will consist of roads being rebuilt along with minor repairs on sidewalks, curb and gutter.

Fire Department Message

Burns occur when the skin is exposed to temperatures greater than 140 degrees Fahrenheit. Exposure to various substances and elements can cause burns. The following are some common causes of burns.

- Fire •Hot liquid or steam •Hot Objects
- Electricity •Ultraviolet Light •Chemicals
- Friction

Follow the steps below to treat a first or second degree burn:

1. Cool the burned area with cool running water to stop the pain, lessen blistering and speed healing.
2. Don't spray burns with high pressure, just let the water run over the burned area for as long as you can. Minor burns can be cooled with tap water over the sink. Don't be afraid to rinse bigger burns with a hose outside.
3. *Do not use ice to cool a burn.* Ice can cause frostbite very quickly when used on a burn because the skin is already damaged. However, a cold pack of frozen peas straight from the freezer will cool the area and should not damage the skin.
4. Don't apply butter, oil, Crisco, or anything that would hold in the heat.
5. **Never** pop or burst any blister caused by a burn.
6. If an ambulance is coming, don't stop cooling the burn with running water until the ambulance arrives.

West Davis Corridor Update

In June, UDOT held a series of three open houses and public hearings for the public to review the Draft EIS (Environmental Impact Statement) information and submit comments. More than 800 people were in attendance at these events. The official public comment period is currently in progress and will close on August 23. During the public comment period, the public is encouraged to review the contents of the Draft EIS and submit their formal comments to the study team for consideration.

The Draft EIS is available electronically for review on the Documentation page of the study website: www.udot.utah.gov/westdavis_. A hard copy of the Draft EIS is also available at various city buildings and libraries throughout Davis and Weber counties. The Draft EIS is a large report, documenting all the data, information, input and analysis the team has collected and studied for the past three years of the study. The Draft EIS also identifies UDOT's locally preferred alternative, which is a recommendation based on all the data reported thus far.

All public comments will be reviewed and formally responded to in the Final EIS document, which is expected to be released in winter 2013. This will be followed by a Record of Decision from Federal Highway Administration in spring 2014.

For questions or concerns, please contact the study team at 877-298-1991 or by email westdavis@utah.gov.

Annual Hydrant Flushing to Continue

Every year the public works department flushes and checks all hydrants in the city to ensure hydrants have proper pressure and work properly. Flushing will be during the month of July. Below are a few question and answers that may be helpful during the flushing.

Why is the water pressure low? Your water pressure may be low due to the flushing of fire hydrants, which lowers the water pressure in the area that is being tested.

Why is my water discolored? Due to the fire hydrant flushing, customers could experience a temporary discoloration of water, which is due to the unsettling of rust in the water main. Run the **cold** water for about five minutes– this should clear up the water.

My clothes have been discolored from the rust, what should I do? You should clean them with a rust remover, such as "Iron Out" or "Yellow Out" which are available at most home improvement stores. To avoid this, run water prior to doing laundry or avoid doing laundry if the hydrants on your street is being flushed.

Is the water safe to drink? Yes. If the water would be unsafe for any reason to drink, a boil alert would be issued. Before drinking the water, let the cold water run until it is clear.

If you have any questions, please call the Public Works Department at 801-622-2900.
